BAY STATE NURSERIES

W. H. WYMAN & SON, Owners

North Abington, Massachusetts

Price List, Spring 1930

Telephone: Rockland 26

THE PLANTING SEASON

Transplanting can be done successfully as soon as the frost is out of the ground in the spring until early in June. Evergreens and herbaceous perennials can be successfully transplanted until the middle of June. We usually begin to dig about the 20th of March.

LOCATION

The Bay State Nurseries are located in North Abington, Mass., 18 miles south of Boston, on the Plymouth Division of the N. Y., N. H. & H. R.R.—half way from Boston to Plymouth. To reach us by automobile from Boston, drive to Quincy, then proceed directly south through Weymouth and South Weymouth until you see our sign at the fork of the road. Then turn to the left and you cannot miss our office one-half mile farther on. Our office and shipping headquarters are at 678 Adams Street, North Abington, Mass., about one mile north of the car line and railroad station, and less than a mile from the main highway running from Quincy to Bridgewater and the Cape. Our perennial department, however, is located on North Avenue, between North Abington and Rockland.

We are not open for business on Sunday.

SHIPPING DIRECTIONS

In ordering nursery stock our customers are requested to state explicitly the mode of conveyance by which they wish their stock forwarded. We make shipments by express, freight, or motor truck. The price for all our material is at the nursery and does not include delivery. We can make shipment by motor truck at a moderate charge, provided the order is large enough to make a truckload. When no route or method is designated, we exercise our judgment. In no case do we assume any responsibility after packages are shipped, except for our own mistakes. When losses occur by detention or mishandling, claim should at once be made on the transportation company by the consignee.

CLEAN STOCK

In addition to owning one of the finest spraying outfits manufactured, we maintain an inspector formerly in the employ of the U. S. Government, who attends to the spraying at the proper season and also inspects all stock before it is shipped. Our customers are in this way assured of receiving clean stock, free from any injurious insect pest or disease. A certificate of inspection accompanies every shipment.

PLANT NAMES

We have endeavored to list our plants in accordance with the names as given in "Standardized Plant Names," which has been officially adopted by the American Association of Nurserymen.

If you have difficulty in finding in our price list any varieties you wish, write us and we will give you an immediate reply as to whether or not we can furnish them.

CONDITIONS OF SALE

1. The articles herein listed will be furnished in accordance with the following schedule:

1 to 4 plants of one kind will be priced at the each rate, whatever the aggregate of a list made up in numbers of 5 plants of a specific sort may be.

5 to 24 plants of one kind and size will be priced at the ten rate.

25 or more plants of one kind will be furnished at the hundred rate, when hundred rates are given.

FROM THIS SCHEDULE WE WILL NOT VARY because of the fact that considerable time is required to assemble an order made up of small lots of a kind that are scattered over the nursery.

2. We make no charge for packing retail orders, except on very large evergreens and large shade trees.

3. We give no warranty, expressed or implied, as to quality, description, productiveness, of any nursery stock that we sell. The only guarantee that we make is that our stock is alive at time of shipment and true to name. No complaints will be considered that are not made within ten days after receipt of order. Any stock ordered from this list, found untrue to name, will be cheerfully replaced at the first favorable opportunity for planting, after it has been found not as ordered.

4. Higher prices will be charged for specimens of higher quality selected by the customer, or his representative.

TERMS

Our terms are cash, unless by special agreement. Charge accounts may be opened upon receipt of the names of two or more parties with whom the customer has credit relations, or by sending us bank or trade references, allowing us time for investigation. We can ship by express C.O.D. when desired, with charges for collection added to the bill—provided 20 per cent of the amount of the order accompanies the same as a guarantee. All accounts unpaid after the due date will be subject to sight draft without further notice.

The native Catawbiense and Maximum types we offer are all nursery grown, healthy and vigorous. We can, through our collector, furnish these types in collected plants of any quantity desired. Write giving sizes and quantities wanted and we will make special quotations.

See CONDITIONS OF SALE on page 3.

PEAT MOSS

The most satisfactory mulch for Rhododendrons or broad-leaved evergreens of any type is Peat Moss. This we can supply in large full-sized bales at \$4.00 each.

For the best general fertilizer, we recommend Vigoro which we can supply in hundred pound bags at \$6.00 each.

We are handling this material for the convenience of our customers.

DECIDUOUS TREES

In compiling this list, we have endeavored to include only such varieties of stock as we have now in our nurseries, in sizes and quantities offered. In filling orders we shall grade stock according to these specifications. Should orders be received for sizes not found in this list, or should any specified grade be exhausted, we will send the nearest size we have in stock at the time the order is received and charge accordingly UNLESS OTHERWISE ADVISED.

Herbaceous Department

On account of the increasing popularity and demand for **Herbaceous Perennials**, our acreage has been extended from year to year, so that now this department alone covers about thirty-two acres. We are adding new and choice plants to our collection each year.

About all the plants we grow are strong field-grown; the only exceptions being a few species which transplant better by being grown in pots, also some of the choice new varieties.

We invite you to visit our perennial department and see our new propagating greenhouses, our large stock of perennials, and our added facilities for handling orders.

Kindly note, that with the exception of Astilbes, Iris and Paeonies, we have discontinued offering herbaceous plants in single quantities.

Experience has shown us that we cannot go over a large acreage, dig, label, and wrap up a single plant at the present prices, except at a loss. We are, therefore, offering perennials in quantities of three instead of singly. The price per plant has not changed, except in a few cases, but as it takes practically no longer to dig, label and wrap three of a kind instead of one, we believe we can handle small quantities in this way with a narrow margin of profit. Experience leads us to believe that too many try to make a garden, using just one of a kind, whereas, it is actually necessary to have three or better still five or ten of a kind, to give a mass of color and a good effect.

We, therefore, believe that this arrangement will work out satisfactorily both for our customers and for ourselves.

Remember that five plants or more of one variety will be priced at the ten rate.

HARDY PERENNIALS, FERNS AND GRASSES

Varieties marked with an asterisk (*) are particularly adapted for the rock garden.

GERMAN IRIS—TALL BEARDED IRIS

In the following list of Tall-Bearded Iris (German Iris) are included a number of the older varieties, as well as many of the newer sorts. Many of the older varieties have certain characteristics that make them still greatly desirable, and we have added in the past few years a number of newer varieties that we consider of real value. Descriptions of these Iris will be found in our Descriptive Handbook.
